

ELIAMEP News Flash

The monthly news bulletin of the Hellenic Foundation for European and Foreign Policy

Dear Friends of ELIAMEP,

ELIAMEP has established a new research programme on governing irregular migration. This [IRMA project](#) asks how migration control policies will affect the plans and actions of prospective and actual irregular migrants. It also focuses on the particular reasons for the success of specific policies in comparison to other ones.

Furthermore, our Foundation has [joined European Global Strategy](#) 2012 (EGS) process. EGS is mainly organised by four European foreign policy institutes, namely the Swedish Institute of International Affairs, the Institute of International Affairs (Istituto Affari Internazionali), the Polish Institute of International Affairs and the Elcano Royal Institute (Real Instituto Elcano). ELIAMEP is now an associate institute.

A collective [policy report](#) with recommendations for the promotion of media freedom and independence in the 14 MEDIADEM countries has been also published. In addition to policy suggestions targeting national actors, the report formulates policy recommendations addressing the Council of Europe and the European Union and offers a regulatory matrix that provides an overview of the regulatory systems at work in the 14 countries under study. Our [website](#) offers specific details on the recent work of MEDIADEM.

Finally, if you are interested in our Middle East-Mediterranean Report, the [fifth issue](#) has already been published and the sixth one will be available next month.

Publications

- Ioannis Armakolas and Maja Maksimović on [local elections in Bosnia and Herzegovina](#) and on [Serbia-ICTY trials and tribulations](#)
